

# Atlas

*Alexander Pela & Tristan Knott*

# *What is Atlas?*

“ A web-based Learning Management Software crafted to meet the training program needs of small-to medium-sized organizations. ”

# *Milestone 1*

*The discovery and drafting phase:*

- Figuring out what the LMS was
- Layout
- Site Flow

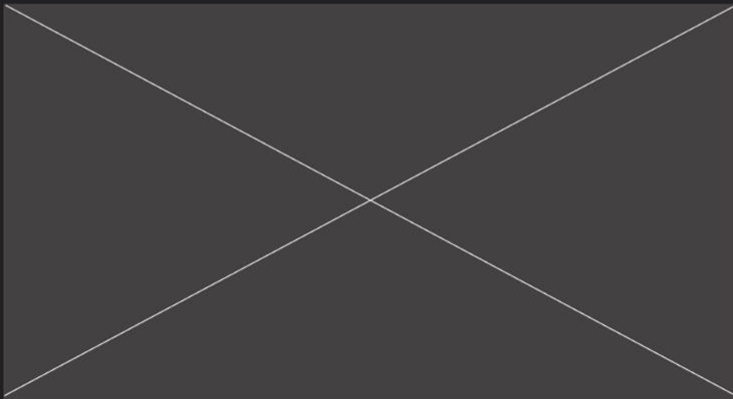

# Login Page

LMS

**Short Description of what the website/LMS is and  
or what it can do**

List out some features

## *Milestone 2*

*Checking in on visual design and layout and acknowledging feedback:*

- Improve visuals
- Change layout of all pages.
- Finalized assets (fonts, colors, etc).
- Workflow of each form/page

# Login Page

Carousel of images of  
website with description  
text in serif font that  
changes per image

# *Alex's Three Lessons*

1. The importance of design and prototyping
2. Mastery of Bootstrap/CSS
3. Choosing colors for a project

# *Tristan's Three Lessons*

1. Organizing bootstrap/css settings early on
2. Setting up a code structuring pattern for sites with similar designs
3. Coding to match prototype
